

Scotia Private Strategic Balanced Pool

Interim Management Report of Fund Performance

For the period ended June 30, 2017

This interim management report of fund performance contains financial highlights, but does not contain the complete interim financial statements of the investment fund. You can get a copy of the interim financial statements at your request, and at no cost, by calling toll-free 1-800-268-9269, by writing to us at 1832 Asset Management L.P., 1 Adelaide Street East, 28th Floor, Toronto, ON, M5C 2V9 or by visiting our website at www.scotiabank.com/scotiaprivatepools or SEDAR at www.sedar.com.

Securityholders may also contact us using one of these methods to request a copy of the investment fund's annual financial statements, proxy voting policies and procedures, proxy voting disclosure record or quarterly portfolio disclosure.

1832 Asset Management L.P. is the manager (the "Manager") of the fund. In this document, "we", "us", "our" and the "Manager" refer to 1832 Asset Management L.P. and the "Fund" refers to Scotia Private Strategic Balanced Pool.

The term "net asset value" or "net asset value per unit" in this document refers to the net asset value determined in accordance with Part 14 of National Instrument 81-106 – Investment Fund Continuous Disclosure ("National Instrument 81-106"); while the term "net assets" or "net assets per unit" refers to total equity or net assets attributable to unitholders of the Fund as determined in accordance with International Financial Reporting Standards ("IFRS").

Caution Regarding Forward-Looking Statements

Certain portions of this report, including, but not limited to, "Recent Developments", may contain forward-looking statements about the Fund and the underlying funds, as applicable, including statements with respect to strategies, risks, expected performance events and conditions. Forward-looking statements include statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as "expects", "anticipates", "intends", "plans", "believes", "estimates", "projects" and similar forward-looking expressions or negative versions thereof.

In addition, any statement that may be made concerning future performance, strategies or prospects and possible future action by the Fund is also a forward-looking statement. Forward-looking statements are based on current expectations and projections about future general economic, political and relevant market factors, such as interest rates, foreign exchange rates, equity and capital markets, and the general business environment, in each case assuming no changes to applicable tax or other laws or government regulation. Expectations and projections about future events are inherently subject to, among other things, risks and uncertainties, some of which may be unforeseeable. Accordingly, current assumptions concerning future economic and other factors may prove to be incorrect at a future date.

Forward-looking statements are not guarantees of future performance and actual results or events could differ materially from those expressed or implied in any forward-looking statements made by the Fund. Any number of important factors could contribute to these digressions, including, but not limited to, general economic, political and market factors in North America and internationally, such as interest and foreign exchange rates, global equity and capital markets, business competition, technological change, changes in government relations, unexpected judicial or regulatory proceedings and catastrophic events. We stress that the above mentioned list of important factors is not exhaustive. Some of these risks, uncertainties and other factors are described in the Fund's simplified prospectus, under the heading "Specific risks of mutual funds".

We encourage you to consider these and other factors carefully before making any investment decisions. Forward-looking statements should not be unduly relied upon. Further, you should be aware of the fact that the Fund has no specific intention of updating any forward-looking statements whether as a result of new information, future events or otherwise, prior to the release of the next management report of fund performance, and that the forward-looking statements speak only to the date of this management report of fund performance.

Results of Operations

For the six month period ended June 30, 2017 (the "period"), the Pinnacle Series units of the Fund returned –0.2%. Fund returns are reported net of all management fees and expenses for all series, unlike the returns of the Fund's benchmark, which is based on the performance of an index that does not pay fees or incur expenses. Returns for other series of the Fund will be similar to Pinnacle Series units with any difference in performance being primarily due to different management fees, operating expenses and other expenses that are applicable to that particular series. Please see the "Past Performance" section for the performance of the Fund's other series.

The Fund's broad-based benchmarks, the FTSE TMX Canada Universe Bond Index and the S&P/TSX Composite Index, returned 2.4% and 0.7%, respectively, during the same period. In accordance with National Instrument 81-106, we have included a comparison to broad-based indices to help you understand the Fund's performance relative to the general performance of the market, but caution that the Fund's mandate may be significantly different from the indices shown.

The Fund's blended benchmark, 50% S&P/TSX Composite Index and 50% FTSE TMX Canada Universe Bond Index, returned 1.6% during the same period. We have included this comparison, which more closely reflects the market sectors and/or asset classes in

which the Fund invests, to provide a more useful comparative to the performance of the Fund.

The Fund underperformed its blended benchmark as a result of sector allocation.

The period in review has been marked by added volatility as Donald Trump's presidency continued to fuel uncertainty in global markets. There was also a noticeable shift in policy from central banks around the world. The accommodative monetary policies that markets had become accustomed to appear to be nearing their end as reflationary forces are surfacing. In particular, in Canada which had seen strong economic growth and employment, the central bank altered its interest rate outlook and moved from the possibility of a potential interest rate cut to a near-term interest rate hike. The price of oil continued to remain depressed amid elevated inventories and supplies in the market.

During the period, within the Fund, equities underperformed while bonds outperformed. With regards to equities at the sector level, the Industrials and Information Technology sectors performed strongly and detracted from the performance of the Fund due to being underweight these sectors. Conversely, the Fund's higher exposure to the Telecommunication Services sector contributed to the Fund's performance. The Fund's exposure to the Energy sector was a detractor to performance. With regard to bonds there were several factors that contributed to the outperformance. Duration management, yield curve positioning, foreign bond activity as well as corporate bond exposure added to the positive performance during the first half of the year. The duration position was managed in a defensive manner with the duration shorter than the benchmark. The portfolio benefited from the increase in interest rates that occurred at the end of the second quarter.

Looking at the equities at the security level, Energy holdings declined. In particular, Cenovus declined in price as the company made a surprise acquisition of strategic assets from Conoco Phillips, taking on more debt in the process. The stock was heavily penalized by the market in the ensuing weak oil price environment. The price of oil remains at attractive levels relative to our view on long term equilibrium prices, but we are cautious in the near term given the fragility of the OPEC agreement and the threat of higher supplies. Telecommunication Services holdings Rogers Communications and Telus outperformed during the period on strong quarterly results. North West Company had strong performance as its shares recovered from weak quarterly results at the end of last year. In addition, the company made a small acquisition that was well received by the market.

The Fund's net asset value increased by 5.4% to \$60.3 million at June 30, 2017, from \$57.2 million at December 31, 2016. This change was composed of net sales of \$3.2 million, cash distributions of \$30,191 and investment performance of the Fund of negative \$0.1 million. The investment performance of the Fund includes income and expenses which vary year over year. The Fund's income and expenses changed compared to the previous year mainly as a result of fluctuations in average net assets, portfolio activity and changes in the Fund's income earning investments.

Certain series of the Fund, as applicable, may make distributions at a rate determined by the Manager from time to time. If the aggregate amount of distributions in such series exceeds the portion of net income and net realized capital gains allocated to such series, the excess will constitute a return of capital. The Manager does not believe that the return of capital distributions made by such series of the Fund have a meaningful impact on the Fund's ability to implement its investment strategy or to fulfill its investment objective.

Recent Developments

IFRS 9, Financial Instruments

The final version of IFRS 9, *Financial Instruments* was issued by the International Accounting Standards Board ("IASB") in July 2014 and will replace IAS 39, *Financial Instruments: Recognition and Measurement*, related to the classification and measurement of financial assets and financial liabilities.

IFRS 9 relates to the classification and measurement of financial assets and financial liabilities in the Fund. The new standard is effective for the Fund for the fiscal year beginning January 1, 2018. The Manager has been evaluating the standard and has currently determined that the impact to the Fund will include additional disclosures related to changes to the classification of certain financial instruments to align with the classifications under IFRS 9. Adoption of the standard will not impact net assets attributable to holders of redeemable units. The Manager will continue to monitor for changes to this accounting standard.

Related Party Transactions

The Manager is a wholly-owned subsidiary of The Bank of Nova Scotia ("Scotiabank"). Scotiabank also owns, directly or indirectly, 100% of Scotia Securities Inc., HollisWealth Advisory Services Inc. and Tangerine Investment Funds Limited, each a mutual fund dealer, and Scotia Capital Inc. (which includes HollisWealth, ScotiaMcLeod and Scotia iTRADE), an investment dealer.

The Manager, on behalf of the Fund, may enter into transactions or arrangements with other members of Scotiabank or certain other companies that are related or connected to the Manager (each a "related party"). All transactions between the Fund and the related parties are in the normal course of business and are carried out at arm's length terms.

The purpose of this section is to provide a brief description of any transaction involving the Fund and a related party.

Management Fees

The Manager is responsible for the day-to-day management and operations of the Fund. Certain series of the Fund pay the Manager a management fee for its services as described in the "Management Fee" section later in this document. The management fee is an annualized rate based on the net asset value of each series of the Fund, accrued daily and paid monthly.

Fixed Administration Fees and Other Fund Costs

The Manager pays the operating expenses of the Fund, other than Other Fund Costs, in exchange for the payment by the Fund of a fixed rate administration fee (the “Fixed Administration Fee”) to the Manager with respect to each series of the Fund. The expenses charged to the Fund in respect of the Fixed Administration Fee are disclosed in the Fund’s financial statements. The Fixed Administration Fee is equal to a specified percentage of the net asset value of a series, calculated and paid in the same manner as the management fees for the Fund. Further details about the Fixed Administration Fee can be found in the Fund’s most recent simplified prospectus.

In addition, each series of the Fund is responsible for its proportionate share of certain operating expenses (“Other Fund Costs”). Further details about Other Fund Costs can be found in the Fund’s most recent simplified prospectus.

The Manager, at its sole discretion, may waive or absorb a portion of a series’ expenses. These waivers or absorptions may be terminated at any time without notice.

Custodial Services

Scotiabank, as the custodian of the Fund, earns a fee for providing custody and related services. The custodian holds the investments of the Fund and keeps them safe to ensure that they are used only for the benefit of the investors of the Fund.

The custodian fee is paid by the Manager, in exchange for the Fixed Administration Fee received from the Fund.

The Fund has received approval from the Independent Review Committee to invest the Fund’s overnight cash with Scotiabank with interest paid by Scotiabank to the Fund, based on prevailing market rates.

Scotiabank also serves as the securities lending agent for the Fund for which the Fund earns income and Scotiabank may earn a fee.

Related Brokerage Commissions

From time to time, the Fund may enter into portfolio securities transactions with Scotia Capital or other related dealers in whom Scotiabank has a significant interest (a “Related Broker”). These Related Brokers may earn commission or spreads on such transactions, which are made on terms and conditions that are comparable to transactions made with non-related brokers.

During the period, the Fund paid \$594 in commissions to Related Brokers.

Independent Review Committee

The Manager has established an independent review committee (the “IRC”) in accordance with National Instrument 81-107 – Independent Review Committee for Investment Funds (“NI 81-107”) with a mandate to review and provide recommendations or approval, as required, on conflict of interest matters referred to it by the Manager on behalf of the Fund. The IRC

is responsible for overseeing the Manager’s decisions in situations where the Manager is faced with any present or perceived conflicts of interest, all in accordance with NI 81-107.

The IRC may also approve certain mergers between the Fund and other funds, and any change of the auditor of the Fund. Subject to any corporate and securities law requirements, no securityholder approval will be obtained in such circumstances, but you will be sent a written notice at least 60 days before the effective date of any such transaction or change of auditor. In certain circumstances, securityholder approval may be required to approve certain mergers.

The IRC has five members, Carol S. Perry (Chair), Brahm Gelfand, Simon Hitzig, D. Murray Paton and Jennifer L. Witterick, each of whom is independent of the Manager.

The IRC prepares and files a report to the securityholders each fiscal year that describes the IRC and its activities for securityholders as well as contains a complete list of the standing instructions. These standing instructions enable the Manager to act in a particular conflict of interest matter on a continuing basis provided the Manager complies with its policies and procedures established to address that conflict of interest matter and reports periodically to the IRC on the matter. This report to the securityholders is available on the Manager’s website or, at no cost, by contacting the Manager.

The compensation and other reasonable expenses of the IRC will be paid out of the assets of the Fund as well as out of the assets of the other investment funds for which the IRC may act as the independent review committee. The main components of compensation are an annual retainer and a fee for each committee meeting attended. The chair of the IRC is entitled to an additional fee. Expenses of the IRC may include premiums for insurance coverage, travel expenses and reasonable out-of-pocket expenses.

The Fund received the following standing instructions from the IRC with respect to related party transactions:

- Paying brokerage commissions and spreads to a related party for effecting security transactions on an agency and principal basis on behalf of the Fund;
- Purchases or sales of securities of an issuer from or to another investment fund managed by the Manager;
- Investments in the securities of issuers for which a related underwriter acted as an underwriter during the distribution of such securities and the 60-day period following the completion of such distribution;
- Executing foreign exchange transactions with a related party on behalf of the Fund;
- Purchases of securities of a related party;
- Entering into over-the-counter derivatives on behalf of the Fund with a related party;
- Entering into securities lending transactions with a related party;

- Outsourcing products and services to related parties which can be charged to the Fund;
- Acquisition of prohibited securities as defined by securities regulations;
- Trading in mortgages with a related party.

The Manager is required to advise the IRC of any breach of a condition of the standing instructions. The standing instructions require, among other things, that the investment decision in respect to a related party transaction: (a) is made by the Manager free from any influence by an entity related to the Manager and

without taking into account any consideration to any associate or affiliate of the Manager; (b) represents the business judgment of the Manager uninfluenced by considerations other than the best interests of the Fund; and (c) is made in compliance with the Manager's written policies and procedures. Transactions made by the Manager under the standing instructions are subsequently reviewed by the IRC to monitor compliance.

The Fund relied on IRC standing instructions regarding related party transactions during the period.

Financial Highlights

The following tables show selected key financial information about each series of the Fund and are intended to help you understand the Fund's financial performance for the periods indicated. The information on the following tables is based on prescribed regulations and as a result, is not expected to add down due to the increase (decrease) in net assets from operations being based on average units outstanding during the period and all other numbers being based on actual units outstanding at the relevant point in time. Footnotes for the tables are found at the end of the Financial Highlights section.

⁽¹⁾ This information is derived from the Fund's interim and audited annual financial statements. The net assets per unit presented in the financial statements may differ from the net asset value calculated for Fund pricing purposes. An explanation of these differences can be found in note 2 of the Fund's financial statements. The net asset value per unit at the end of the period is disclosed in Ratios and Supplemental Data. Information related to 2012 and prior was prepared in accordance with Part V of the CPA Handbook (Pre-Changeover Accounting Standards) and subsequent to 2012 was prepared in accordance with Part I of the CPA Handbook (International Financial Reporting Standards).

⁽²⁾ Net assets per unit and distributions per unit are based on the actual number of units outstanding for the relevant series at the relevant time. The increase (decrease) in net assets from operations per unit is based on the weighted average number of units outstanding over the period.

⁽³⁾ Distributions were paid in cash or reinvested in additional units of the Fund.

(1) This information is provided as at the period end of the years shown.

(2) The management expense ratio is based on total expenses (including sales tax, and excluding commissions and other portfolio transaction costs) of each series of the Fund and a proportionate share of underlying fund expenses (mutual funds, ETFs and closed-end funds), where applicable, for the stated period and is expressed as an annualized percentage of the daily average net asset value during the period.

(3) The trading expense ratio represents total commissions and other portfolio transaction costs of the Fund and the underlying funds, where applicable, expressed as an annualized percentage of the daily average net asset value of the Fund during the period.

(4) The Fund's portfolio turnover rate indicates how actively the Fund's portfolio advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the period. The higher a fund's portfolio turnover rate in a period, the greater the trading costs payable by the fund in the period, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a fund.

Management Fees

The management fee is an annualized rate based on the net asset value of each series of the Fund, accrued daily and paid monthly. The management fees cover the costs of managing the Fund, arranging for investment analysis, recommendations and investment decision making for the Fund, arranging for distribution of the Fund, marketing and promotion of the Fund and providing or arranging for other services.

The breakdown of services received in consideration of management fees for each series, as a percentage of the management fees, are as follows:

	Maximum management fees (%)	Dealer compensation (%)	Other† (%)
Pinnacle Series*	n/a	n/a	n/a
Series F	1.00	-	100.0

* The management fee for this series is negotiated and paid directly by these unitholders and not by the Fund.

† Relates to all services provided by the Manager described above except dealer compensation.

Past Performance

The following shows the past performance for each series and will not necessarily indicate how the Fund will perform in the future. The information shown assumes that all distributions made by each series of the Fund in the periods shown were reinvested in additional units of the relevant series. In addition, the information does not take into account sales, redemption, distribution or other optional charges that would have reduced returns or performance.

Year-by-Year Returns

The following charts show the performance for each series of the Fund and illustrate how performance has varied from year to year. The charts show, in percentage terms, how much an investment held on the first day of each calendar year would have increased or decreased by the last day of each calendar year for that series.

Summary of Investment Portfolio

The Summary of Investment Portfolio may change due to ongoing portfolio transactions. A quarterly portfolio update is available to the investor at no cost by calling 1-800-268-9269, or by visiting www.scotiabank.com/scotiaprivatepools, 60 days after quarter end, except for December 31, which is the calendar year end, when they are available after 90 days.
